

Mock OSHA Inspection

THE COMPLIANCE EDGE

DELIVERED IN A NEAT AND TIDY REPORT

Prepare for OSHA and stay ahead of the curve with mock inspections. Upon completion of our inspection, The Compliance Edge provides a confidential report of the findings. Outlined within the report includes extremely detailed notes, photos, and recommendations.

Our report includes a scale of highest to lowest importance for the order of tasks that need to be done prior to OSHA inspection. Increase workplace safety and avoid hefty fines with The Compliance Edge.

YOUR SAFETY PARTNER

As you know, a lot goes into safety and compliance. More often than not, our clients take advantage of our partnership, not just our individual services. The Compliance Edge offers consulting, safety training courses, ISNet Compliance, and so much more.

We want to be your partner, not just your provider.

WHAT WE COVER

The purpose of Mock OSHA Inspections is to help our clients identify some of the possible pain points, with a primary focus on any potential hazards that are identified on OSHA's top 10 most frequently cited deficiencies. A Mock OSHA inspection helps you identify where safety and health hazards/violations exist within everyday operations.

Assess the Safety and Health system against various selected OSHA standards

Identify areas of opportunity to improve existing risk-control measures

Prioritize task items likely to have an immediate impact of employee, contractor, or visitor safety and health.

SAFETY TRAINING

Extensive online or onsite training including OSHA, Hazwoper, and even an unlimited online subscription.

ONGOING SUPPORT

From safety software and LMS to risk assessments and industrial hygiene consulting, CE is your safety partner.

PLANNING AND GROWTH

The Compliance Edge is about more than transactions. We create short and long term safety programs and also offer leadership training.

GET OSHA COMPLIANT

RISK ASSESSMENT

A thorough audit of all current safety systems, critical risk factors and exposures, starting from the top down. Leadership, written safety program & Manual, OSHA Record Keeping, Job Hazard Assessment, Safety training Documentation. Our complimentary service leaves no stone unturned.

SAFETY MANUAL DEVELOPMENT

We develop safety manuals from the ground up, update your existing manual and/or customize a safety manual to be site specific to your company's needs. Our customized safety manuals are developed to exceed the OSHA recommended standards specific to your state.

INDUSTRIAL HYGIENE MONITORING

CE provides all types of noise and air monitoring for all operations. The best part? We own and maintain all of our equipment, with no additional fees for rentals. We use a certified laboratory for all sampling analysis, all work is overseen by a Certified Industrial Hygienist.
